Re: Beach Drive / Holloway Lane Water Main Replacement Project  
Property I.D.: xxxx Holloway Lane

Dear CWA Member:

As you may be aware, the existing water main on Holloway Lane will be replaced with a new 6-inch water main in the fall of 2018. Please find attached the following item related to this project:

- Project Plan Sheet: This sheet reflects the new water main location and proposed construction near your residence.

Please note that although the construction contractor will endeavor to keep access open to residents, it is possible that during working hours portions of Holloway Lane will need to be closed in order to install the new water pipe.

If you would like to know more about the project, or if you have questions regarding the enclosed information, please feel free to contact us at the Project Engineer's Office, at 360-279-0615, or email to [greg@caneengineering.com](mailto:greg@caneengineering.com).

Open House: If you would like to discuss the project with us in person, the open house for the Project will be held on Monday, December 11, 2017 from 6 P.M. to 8 P.M. at the Camano Water Association Office (82 W. Monticello Drive).

Sincerely,

Camano Water Association

Cane Engineering

Daniel Peterson, Operations Manager

Gregory Cane, P.E., Project Engineer
